

Vijay Kumar M R

Full Stack Developer

Profile

Aspiring Full Stack Developer. Developed websites with a wide range of front-end and back-end skills like React js, HTML, CSS, Python, JavaScript, Node js, Bootstrap, etc. Looking to further enhance my skill set with React js and as a future Full Stack Web Developer.

Projects

All In One Website

June 2023 — Present

- Built with Nodejs, EJS templating, axios and expressjs. Website built for gaining knowledge or daily use to learn various things.

Personal Blog Website,

March 2023 — June 2023

- Built end-to-end web application in Python with Flask.
- Login enabled website secured using hashing. Skills used: Python, Bootstrap5, Flask App, SQL | Tools: Pycharm, Render, GitHub

Quiz Website

July 2023 — August 2023

- A Beautiful looking Quiz Website to record your knowledge. Get Questions randomly from OpenTriviaDB into our website using APIs.

Restful API From Scratch

May 2023 — June 2023

- Built a custom made api which retrieves data from the server, in our case localhost. This a REST API which features all types of requests.
- Uses MongoDB to store data.

React Project Management App

September 2023 — November 2023

- A Basic Project Management App in react with Components, States, Refs, etc.
- Styled with Tailwind CSS. | Tools : VSCode, CodeSandBox
